

## NO COST | LOW COST TELEHEALTH

**\*\*Up to 4-6 pets are usually covered under the same membership for most platforms\*\***

We strongly advocate for pet-parents to download and utilize a **TELEHEALTH APP**. *Telehealth can often be a reasonable low cost alternative to get your pet-related questions answered; labwork interpreted; and oftentimes, medications [re]filled.*

We recommend the following services; however, we are not directly affiliated with or accountable for the advice received: [Pawp](#), [Dutch](#), [Fuzzy](#), or [Connect with a Vet by Chewy](#). These organizations listed all have one or more of the following options: *no-cost, low-cost, free trial periods, medication refills, and online access to \$3,000+ of emergency pet funds for a low monthly membership rate.*
