

PRESCRIPTION PAW-LICY

MAKING MEDICATIONS EASY FOR YOU & YOUR PET!

We want to ensure your pet gets the care they need - safely, quickly, and affordably. Here's how prescriptions work at Second Chances Veterinary Care:

YOUR PET'S MEDICATIONS

Your furry friend may need:

Pain relief ✦ Prescription diets ✦ Antibiotics ✦ Supplements

We always explain how and when to give each medication. If it's tricky or you're unsure! Just give us a call!

Sometimes we use human or generic (extra-label) medications. Rest assured, we'll always explain their safety and uses in writing.

Have questions? Just ask!

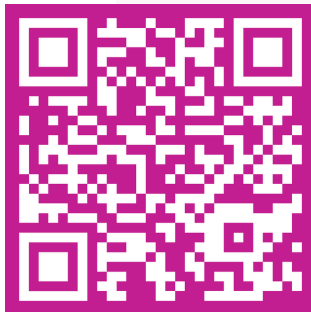

ORDER ONLINE THE EASY WAY!

Skip the hassle and order from a trusted veterinary pharmacy with products sourced directly from manufacturers:

SCVC Online Pharmacy

Hills to Home Prescription Diet

Purina Proplan Veterinary Diet

WANT TO USE AN OUTSIDE PHARMACY? NO PROBLEM!

We support your choice! Whether it's a big-box store, local pharmacy, or third-party online source (like Chewy or 1-800-PetMeds), we just ask for a small professional service fee:

- \$15 for printed or emailed prescriptions
- \$30 for all other formats (ex., call-ins, faxes, and online requests processed by our team)

These fees help cover the time and care our staff puts into verifying, documenting, and ensuring your pet's safety—no shortcuts here!
